

ASX

## Styled for Adventure

The new ASX turns heads with its revamped, tough, and rugged front and rear design. The wide and stable design philosophy and versatile cargo area show its go-anywhere capability, while its electronically-controlled 4WD system helps you get to any destination. And no matter where you go, it's easy to stay connected and entertained with the latest in infotainment and smart technology.

## Your Daily Partner

Note: Some of the equipment may vary in appearance or availability according to market. Please consult your local Mitsubishi dealer/distributor for more detailed information. Images are for illustration purposes only. Please stow or secure small objects and/or other belongings. Driver is always responsible for safe and attentive driving.

## Your Weekend Getaway

Note: Some of the equipment may vary in appearance or availability according to market. Please consult your local Mitsubishi dealer/distributor for more detailed information. Images are for illustration purposes only. Please stow or secure small objects and/or other belongings. Driver is always responsible for safe and attentive driving.

## Sit and Relax. You're in Control.

Note: Some of the equipment may vary in appearance or availability according to market. Please consult your local Mitsubishi dealer/distributor for more detailed information. Images are for illustration purposes only. Please stow or secure small objects and/or other belongings. Driver is always responsible for safe and attentive driving.

**Style, Entertainment,  
and Comfort for All**

Note: Some of the equipment may vary in appearance or availability according to market. Please consult your local Mitsubishi dealer/distributor for more detailed information. Images are for illustration purposes only. Please stow or secure small objects and/or other belongings. Driver is always responsible for safe and attentive driving.

**UTILITY**  
Imagine the possibilities.

**CARGO CAPACITY**

The versatile cargo area is spacious and easy to use for any driver. With up to 358\* liters of cargo space available even with 5 occupants inside, you can bring everything you need. The wide tailgate opening and low cargo floor make the loading and unloading of cargo fuss-free for everybody.

\* With rear seatback in upright position. Includes 13-liter underfloor compartment space (with tire repair kit).  
1,350 mm maximum width of cargo area.  
1,510 mm maximum length with rear seats folded down.  
Measured by Mitsubishi Motors Corporation.

**FULL-FLAT REAR SEAT / 60:40 SPLIT FOLDABLE SEATBACK**

Anybody can easily use the rear seat release buttons. Fold down the rear seatbacks to transport bulky or oddly-shaped items.

**ROOF RAILS**

Rugged yet sporty, the roof rails accentuate the flowing roof lines of the ASX.

**GLASS ROOF**

Enjoy the view from every direction with the panoramic glass roof. At night, the roof is attractively illuminated with LED lamps.

**FRONT CENTER ARMREST AND COMPARTMENT**

Keep small items stored safely away in the center compartment tray.

Note: Some of the equipment may vary in appearance or availability according to market. Please consult your local Mitsubishi dealer/distributor for more detailed information. Images are for illustration purposes only. Please stow or secure small objects and/or other belongings. Driver is always responsible for safe and attentive driving.

## SUV CAPABILITY All Work and All Play

### 2.0-LITER MIVEC\* ENGINE

The 2.0-liter engine gives you all the power you need for all your trips. MIVEC technology allows the engine to combine maximum power output, fuel efficiency, and environmental performance.

\* Mitsubishi Innovative Valve timing Electronic Control system

Maximum Torque **197 N·m / 4,200rpm**      Maximum Output **110 kW / 6,000rpm**

### INVECS-III CVT

The 2.0-liter engine is teamed with the INVECS-III (Intelligent & Innovative Vehicle Electronic Control System) CVT (Continuously Variable Transmission), ideally tuned to deliver effortless acceleration from any speed.

### PADDLE SHIFT

Sporty paddle shifters let you smoothly and electronically shift gears without removing your hand from the steering wheel.

Note: Paddle shift is available for CVT models only.

### SUSPENSIONS

The MacPherson strut front and multi-link rear suspensions make driving on rough roads smooth and comfortable. The shock absorbers and stabilizers are precision-tuned for responsive handling and sporty, comfortable performance.

### ELECTRONICALLY CONTROLLED 4WD WITH DRIVE MODE SELECTOR (PUSH BUTTON)

On the road, choose between 3 driving modes to best match your preferred driving style and road conditions for fuel-efficient driving and outstanding 4WD performance.

DRIVE MODE SELECTOR

**2WD**: Enables economical performance approaching that of a normal front-engine front-wheel-drive car.

**4WD AUTO**: The "4WD Auto" mode automatically distributes the right amount of torque to all wheels depending on the driving condition. It maintains stability in strong wind, on highways and slippery roads.

**4WD LOCK**: "4WD Lock" mode for steep hills, slippery or rough roads, and when getting out of mud or snow.

### ACTIVE STABILITY CONTROL (ASC) AND TRACTION CONTROL (TCL)

The Active Stability Control system uses onboard sensors to analyze the vehicle's motion and identify lateral wheel slippage. By governing engine output and applying braking power to the appropriate wheels, ASC helps to maintain stability and control.

### GEARSHIFT INDICATOR

A gear shift indicator in the multi-information display recommends the best shift timing for current driving conditions.

Note: Some of the equipment may vary in appearance or availability according to market. Please consult your local Mitsubishi dealer/distributor for more detailed information.

**SAFETY**  
**Intelligently Safe**

**BLIND SPOT WARNING (BSW) /  
 LANE CHANGE ASSIST (LCA)**

This safety feature uses radar sensors in the rear bumper to detect vehicles in your rear blind spots, on the right and left sides. An indicator appears in the door mirror when BSW is active and the turn signals are off. When a vehicle is detected while the turn signal is on, an indicator blinks in the corresponding door mirror and a buzzer sounds.

Note: The detection and control capabilities of Blind Spot Warning (BSW) / Lane Change Assist (LCA) are supplemental only and do not warn you of vehicles in blind spots in every situation. Please do not rely solely on this system while driving. BSW/LCA may not operate normally in some cases, depending on traffic, weather, road surface conditions and the presence of obstructions. Drivers are fully responsible for their own safe driving. The radar wave graphics are used for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

**REAR CROSS TRAFFIC ALERT (RCTA)**

An indicator appears in the combination meter display when RCTA is active. If radar sensors in the rear bumper detect an approaching vehicle nearby while reverse gear is engaged, a warning message appears in the multi-information display, a buzzer sounds and an indicator blinks in both door mirrors.

Note: Do not rely solely on this system, which may not detect all moving vehicles in certain conditions. Drivers are fully responsible for their own safe driving. The radar wave graphics are for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

### 7-AIRBAG SYSTEM

The available 7-airbag system helps protect every passenger in every seat. For protection in frontal collisions, front passengers get front airbags and a knee airbag on the driver's side. In a side collision, front passengers are protected by side airbags while both rows are protected by curtain airbags.

Note: 7-Airbag System is optional. Equipment may vary from the image shown. Airbags are part of a Supplemental Restraint System (SRS). To decrease the risk of injury from a deploying airbag, always wear your seat belt, sit upright in the middle of the seat and do not lean against the door. Always place children 12 and under in the rear seat and use appropriate child restraints. Never place a rear-facing infant restraint in the front seat. Please see the owner's manual and the instructions provided with your child restraint for additional information.

### REAR VIEW MONITOR

A live color image with parking guidelines helps prevent backing into debris or other hazards out of sight.

## SAFETY

# Tough, Balanced, and Confident

### LED HEADLAMPS

When activated, the headlamp clusters send out broad beams of light, illuminating a wide section of the road ahead.

### REAR COMBINATION LAMPS

The T-shaped rear combination lamps have a wide and stable look and feel. The brake lights illuminate independently for better visibility.

### DAYTIME RUNNING LIGHTS / FOG LAMPS

The L-shaped daytime running lights give the front face a sharp and sporty feel. The fog lamps are coupled with turn lights for a look that stands out.

### HILL START ASSIST (HSA)

HSA makes it easy to start off on a steep uphill slope by preventing the vehicle from rolling backward. When a gradient is detected, it automatically maintains the braking force until the accelerator is applied.

Note: Hill Start Assist (HSA) is not a substitute for safe driving. Never rely solely on this function while driving on steep roads. Your vehicle may move backwards if the brake pedal is heavily loaded, or if road is very steep or slippery. This function is not designed to keep the vehicle stopped in place on uphill slopes for more than 2 seconds. Do not rely on this function to maintain a stopped position as an alternative to depressing the brake pedal. Please see the owner's manual for additional information.

### EMERGENCY STOP SIGNAL SYSTEM

When sudden braking is detected, this system helps reduce the chance of a rear collision by automatically flashing your hazards to warn the driver behind.

Note: The capabilities of the Emergency Stop Signal System are supplemental only and do not prevent collisions in every situation. Please drive safely and do not rely solely on this system while driving. The system activates at a vehicle speed of approx. 55 km/h or higher, and when the system judges emergency braking from sudden deceleration and operating condition of the anti-lock brake (ABS) system. If you have any questions, please consult your local Mitsubishi Motors dealer/distributor for details.

### RISE BODY

### RISE

Collision safety performance is significantly enhanced by Mitsubishi Motors' RISE (Reinforced Impact Safety Evolution) body, which efficiently absorbs energy and maintains high cabin integrity in the event of a collision.

### Apple CarPlay™

You can use a number of audio, messaging, voice calling, and 3rd party navigation apps from your iPhone with CarPlay.

- 1 Maps
- 2 Siri
- 3 Phone
- 4 Some supported 3rd party apps

Note: Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.

For more information: [www.apple.com/ios/carplay/](http://www.apple.com/ios/carplay/)

### Android Auto™

Use Google Maps via your 8-inch center display. Voice activation capabilities allow hands-free use. Conveniently use your favorite apps in your car.

- 1 Maps
- 2 Google Assistant
- 3 Phone
- 4 Apps

Note: Google, Android, Android Auto and other related marks are trademarks of Google LLC.

## CONNECTIVITY Link Your Worlds

### 8-INCH DISPLAY MONITOR

Navigation and rear view camera are easier to use with the larger 8-inch touchscreen. The sleek new color scheme gives it a refined feel.

### Apple CarPlay™

### Android Auto™

### SMARTPHONE-LINK DISPLAY AUDIO (SDA)

Go where you want, when you want. Discover new places and new music. Smartphone-link Display Audio (SDA) helps you find such moments. You can operate map settings, music playback, and calls all with voice actions for a more enjoyable and safer drive.

### 9-SPEAKER ROCKFORD FOSGATE® PREMIUM SOUND SYSTEM

Savor the stunning sound quality of a new audio system jointly developed with the Rockford Corporation. Nine speakers surround you with spectacular DTS Neural Surround™ sound.

Note: Rockford Fosgate® and associated logos are registered trademarks of Rockford Corporation in the United States and other countries. DTS Neural Surround™ is a trademark of DTS, Inc.

### BLUETOOTH® HANDS-FREE KIT / LINK SYSTEM

Keep in touch while keeping safely in control with the hands-free kit. Link your Bluetooth®-compatible mobile phone, and the voice-activated dialer lets you make calls while holding the wheel.

Note: The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by MITSUBISHI MOTORS CORPORATION is under license.

## EQUIPMENT

- 1 A/C control panel with silver dials
- 2 USB port & seat heater
- 3 Gearshift indicator panel
- 4 Smooth synthetic leather door trim insert
- 5 Cup holders
- 6 Side garnish (chrome/material black)
- 7 Shark-fin antenna
- 8 225/55R18 tires with 18-inch light alloy wheels
- 9 215/70R16 tires with 16-inch light alloy wheels

## INTERIOR PANELS
